Notes to Financial Statements  
February 28, 2023

**NOTE 1. ORGANIZATION**

The MP63 Fund, Inc. (the "Fund") is organized as a Maryland Corporation, incorporated on October 13, 1998, and registered as an open-end, diversified, management investment company under the Investment Company Act of 1940, as amended. The Fund's business and affairs are managed by its officers under the direction of its Board of Directors (the "Board"). The Fund's investment objective is to seek long-term capital appreciation for shareholders.

**NOTE 2. SIGNIFICANT ACCOUNTING POLICIES**

The following is a summary of the significant accounting policies followed by the Fund in the preparation of its financial statements. The Fund is an investment company that follows the accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 applicable to investment companies.

- A. Security Valuation - Portfolio securities traded on a national securities exchange are stated at the last reported sales price or a market's official close price on the day of valuation. Portfolio securities for which market quotations are readily available are valued at fair value. Portfolio securities for which market quotations are not considered readily available are valued at fair value on the basis of valuations furnished by a pricing service approved by the Board. Portfolio companies during this reporting period are all widely traded and pricing information is readily available.

Mutual Funds must utilize various methods to measure the fair value of most of its investments on a recurring basis. Accounting principles generally accepted in the United States of America ("U.S. GAAP") establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 - Unadjusted quoted prices in active markets for identical assets the Fund has the ability to access.

Level 2 - Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 - Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuating the asset or liability, and would be based on the best information available.

To the extent that valuation is based on models or inputs that are less observable or unobservable, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. However, the inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

**THE MP63 FUND, INC.**  
Notes to Financial Statements  
February 28, 2023

The following table summarizes the valuation of the Fund's investments by the above fair value hierarchy levels as of February 28, 2023:

(Assets)	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Common Stocks	\$86,939,735	\$ -	\$ -	\$86,939,735
Limited Partnerships	1,202,537	-	-	1,202,537
Real Estate Investment Trust	401,310	-	-	401,310
Money Market Fund	<u>722,755</u>	<u>-</u>	<u>-</u>	<u>722,755</u>
Total	<u>\$89,316,337</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$89,316,337</u>

The Fund did not hold any Level 3 assets during the year ended February 28, 2023. The Fund did not engage in any derivative transactions during the year ended February 28, 2023.

- B. Security Transactions and Related Investment Income - Securities transactions are accounted for on the trade date. Gains and losses on sales of securities are determined on a specific identification basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.
- C. Federal Income Taxes - The Fund's policy is to continue to comply with requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its net investment income as dividends to its shareholders. The Fund intends to distribute its net long-term capital gains and net short-term capital gains at least once a year. Therefore, no provision for federal income taxes is required.

The Fund recognizes the tax benefits of certain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. As of and during the year ended February 28, 2023, management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken in the Fund's open tax years or expected to be taken in the Fund's 2023 tax returns. The Fund identifies its major tax jurisdictions as U.S. Federal and certain State tax authorities; however, the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. As of and during the year ended February 28, 2023, the Fund did not incur any interest or penalties.

- D. Dividends and Distributions to Shareholders - The Fund records dividends and distributions to shareholders on the ex-dividend date. The Fund will distribute its net investment income, if any, and net realized capital gains, if any, annually.
- E. Cash - The Fund maintains cash at its custodian which, at times, may exceed United States federally insured limits. Financial instruments that potentially subject the Fund to credit risk include cash deposits in excess of federally insured limits.
- F. Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

- G. Share Valuation – The net asset value (the “NAV”) is generally calculated as of the close of trading on the New York Stock Exchange (the “Exchange”) (normally 4:00 p.m. Eastern time) every day the Exchange is open. The NAV is calculated by taking the total value of the Fund’s assets, subtracting its liabilities, and then dividing by the total number of shares outstanding, rounded to the nearest cent. The offering price and redemption price per share are equal to the net asset value per share, except for shares redeemed within 6 months.

**NOTE 3. INVESTMENT ADVISORY AGREEMENT AND OTHER RELATED PARTY TRANSACTIONS**

The Fund has entered into an investment advisory agreement (the "Agreement") with The Moneypaper Advisor, Inc. (the "Advisor"). Under this Agreement, the Advisor provides the Fund with investment advice and supervises the Fund's investments. As compensation for the services rendered, the Fund pays the Advisor a fee accrued daily based on an annualized rate of 0.35% of the daily net asset value. For the year ended February 28, 2023, the Advisor earned fees of \$320,514. At February 28, 2023, the Fund owed the Advisor \$24,703 for advisory fees.

The Advisor has voluntarily agreed to waive its fee and to reimburse the Fund for other expenses if the total operating expenses of the Fund exceed an annual rate of 1.25% of average daily net assets. The Advisor did not waive any fees or reimburse the Fund during the year ended February 28, 2023.

The Fund has agreements in place with Mutual Shareholder Services ("MSS") to provide administrative, transfer agency, and fund accounting services. Under these agreements, MSS is paid a fixed annual fee for accounting and administration services which increases incrementally at specified asset thresholds, plus blue sky servicing fees paid on a per filing basis. For transfer agency services, MSS receives a fixed fee per account, subject to an annual minimum. For the year ended February 28, 2023, the Fund paid MSS \$76,388 for the services that it provided to the Fund, comprised of \$42,000 in accounting and administrative services and \$34,388 in transfer agency services. At February 28, 2023, \$22,114 was due to MSS for services provided.

The Fund entered into an Administrative and Operating Services Agreement with Moneypaper Publications LLC, the parent of the Advisor. Under this agreement, Moneypaper Publications LLC provides services to the Fund that are necessary for operation and not provided by other parties. These fund servicing expenses amounted to \$90,778 for the year ended February 28, 2023. At February 28, 2023, the Fund owed \$10,278 for fund servicing expenses.

Certain officers of the Advisor are also officers and a director of the Fund. The Fund currently pays each Independent Director an annual retainer of \$2,000 for regular compensation. The Fund currently does not pay special compensation to any Director. Vita Nelson, as the Interested Director, does not receive any compensation from the Fund for her services as a Director. For the year ended February 28, 2023, the Fund incurred \$13,344 in regular compensation director fees and expenses. The Fund pays the Chief Compliance Officer \$12,066 annually.

**NOTE 5. TAX INFORMATION**

Cumulative unrealized appreciation (depreciation) on a tax basis amounted to the following: Unrealized appreciation \$47,368,194, Unrealized depreciation (\$1,189,121), Net unrealized appreciation \$46,179,073.

For Federal income tax purposes, the cost of investments owned at February 28, 2023 was \$43,137,264. The difference between book and tax cost of investments represents the deferral of losses on wash sales and partnership basis adjustments.

Distributions are determined on a tax basis and may differ from net investment income and realized capital gains for financial reporting purposes. Differences may be permanent or temporary. Permanent differences are reclassified among the components of net assets in the financial statements to reflect their tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized in different periods for financial statement and tax purposes; these differences will reverse at some time in the future. Differences in classification may also result from the treatment of short-term gain as ordinary income for tax purposes. Due to permanent book to tax differences the following adjustments have been made by management as of February 28, 2023. Reclassifications have no effect on net assets, results of operations or net asset value per share of the Fund.

Paid In Capital	\$ (170)
Distributable Earnings	\$ 170

The permanent differences were mainly due to non-deductible partnership expenses.

As of February 28, 2022, the components of distributable earnings on a tax basis were as follows: Undistributed ordinary loss (\$5,741), undistributed capital gains \$233,176, unrealized appreciation \$46,179,073, for a total distributable earnings of \$46,406,508.

The tax character of distributions paid during the fiscal year ended February 28, 2023 was as follows:  
Distributions paid from: Ordinary income \$1,528,455, Long term capital gains \$2,212,614.

The tax character of distributions paid during the fiscal year ended February 28, 2022 was as follows:  
Distributions paid from: Ordinary income \$1,533,272, Long term capital gains \$2,003,445.

**NOTE 6. INDEMNIFICATIONS**

In the normal course of business, the Fund enters into contracts that contain general indemnification to other parties. The Fund's maximum exposure under these contracts is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The Fund expects the risk of loss to be remote.

**NOTE 7. MARKET RISK**

Overall market risks may also affect the value of the Fund. Factors such as domestic economic growth and market conditions, interest rate levels and political events affect the securities markets. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, sanctions, recessions and depressions, or other events could have a significant impact on the Fund and its investments, and may impair market liquidity, thereby increasing liquidity risk. The Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. During a general market downturn, multiple asset classes may be

negatively affected. Changes in market conditions and interest rates can have the same impact on all types of securities and instruments.

An outbreak of infectious respiratory illness caused by a novel coronavirus known as COVID-19 was first detected in China in December 2019 and has now been detected globally. This coronavirus has resulted in travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty. The impact of COVID-19, and other infectious illness outbreaks that may arise in the future, could adversely affect the economies of many nations or the entire global economy, individual issuers and capital markets in ways that cannot necessarily be foreseen. In addition, the impact of infectious illnesses in emerging market countries may be greater due to generally less established healthcare systems. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty.

**NOTE 8. SUBSEQUENT EVENTS**

Management has evaluated subsequent events through the date the financial statements were issued. Based upon this evaluation, the Fund has determined no subsequent events have occurred which would require adjustment to or disclosure in the financial statements.

Expense Example

As a shareholder of the MP63 Fund, you incur two types of costs: (1) transaction costs, including brokerage and other costs associated with portfolio purchases and sales, reinvested dividends, or other distributions; and redemption fees; and (2) ongoing costs, including management fees; service provider fees and expenses and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, September 1, 2022 through February 28, 2023.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which are not the Fund's actual returns. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in this Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

	<b>Beginning Account Value</b>	<b>Ending Account Value</b>	<b>Expenses Paid During the Period*</b>
	<u>September 1, 2022</u>	<u>February 28, 2023</u>	<u>September 1, 2022 to February 28, 2023</u>
Actual	\$1,000.00	\$1,016.16	\$0.04
Hypothetical (5% Annual Return before expenses)	\$1,000.00	\$1,024.79	\$0.04

\* Expenses are equal to the Fund's annualized expense ratio of 0.77%, multiplied by the average account value over the period, multiplied by 181/365 (to reflect the one-half year period).
